SUMMARY

Currently pursuing a Bachelor's Degree in B.Tech Computer Science and Engineering with a specialization in Data Science. I have a great passion for coding, and I am eager to learn new skills. I would describe my personality as creative and determined.

EDUCATION

B-Tech in CSE(Data Science), Manipal Institute of technology,Bengaluru

Jul '23 — Aug '27

ACHIEVEMENTS

AI Productathon — AI Career Readiness Analyzer | Feb 14, 2025 | Team Size: 2

- Secured **2nd Place** in the **AI Productathon** organized by the Product Leaders Forum and Institute of Product Leadership.
- Designed and presented an **AI-powered career readiness analysis prototype** that performs resume-based skill identification, role-specific readiness evaluation, and personalized learning roadmap generation.

PROJECTS

Hand Gesture-Based Mouse Control(Python)

- Built a **real-time hand gesture recognition system** in Python using **MediaPipe** and **OpenCV** to control mouse functions via webcam input.
- Integrated **PyAutoGUI** to simulate mouse actions such as cursor movement, clicking (pinch gesture), and scrolling based on detected hand gestures.
- Implemented a **user-friendly interface with visual feedback**, enhancing usability and clearly indicating gesture-based actions in real time.
- Optimized **gesture detection for smooth, responsive control**, combining computer vision and automation for a touchless user experience.

Financial Advisor-ML & Data Science Project

- Developed a **personalised financial advisory web application** using **Python, CSS, Flask, and PostgreSQL**, integrating real-time stock market data.
- Implemented **Natural Language Processing (NLP)** on financial news articles and applied **Logistic Regression** for sentiment classification (positive/negative) to evaluate stock outlooks.
- Integrated external **APIs** (Yahoo Finance, Alpha Vantage, News API) to extract historical prices, market trends, and news data for data-driven investment recommendations.
- Performed **data preprocessing**, feature extraction (TF-IDF), and exploratory data analysis (EDA) to improve model accuracy, interpretability, and overall decision reliability

SKILLS & INTERESTS

Programming Languages: C, Java, Python

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming(OOP)

Web Development: HTML, CSS, JavaScript, Flask, Bootstrap, jQuery, Django

Database Management: SQL, NoSQL

Tools & Technologies: Git, VS Code, CodeBlocks, GitHub

Other Skills: Machine Learning, Artificial Intelligence, API Integration, NLP, Problem Solving

LEADERSHIP/ EXTRACURRICULAR

Ignite | Executive Secretary

- Maintained clear and efficient communication across club committees, ensuring timely dissemination of information and documentation of key decisions.
- Orchestrated the successful execution of 'Navodaya', a two-day event that established 30+ networking opportunities for industry professionals and provided critical career insights through workshops, discussions, and competitions
